IMFAHE´S GLOBAL ENTREPRENEURSHIP COMPETITION

Summary

114 VENTURES

593 ENTREPRENEURS

72 ORGANIZATIONS

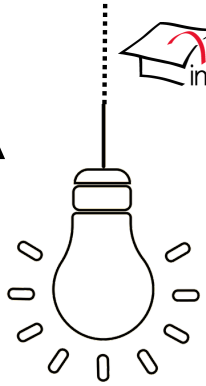

25 COUNTRIES

$87.250 SEED GRANTS

Finalist & Awarded Teams 2026

	AWARD ($)
Safe-Immune Onco-Check. AI-based oncology tool to address immune-related toxicity prediction innovative protocol.	2000
Whale Acoustic Detection Buoy. An Autonomous AI-Based Marine Monitoring and Vessel Alert System.	2000
Biomaterials4Biosensors. Bacterial-Cellulose Personalised Bioactive Masks for Medical-Aesthetic Dermatology (BAC-DERM).	1500
The BBB Digital Twin. Digital Twin of Blood–Brain Barrier Permeability to Optimize Physical Therapies for Improved Drug Delivery to the Central Nervous System.	1300
3D printers. Making Low-Cost 3D Printing Trustworthy: Multimodal AI for Real-Time Quality Assurance.	1200
SoundXR. Accessible Music, Extended Reality and Digital Musical Instruments for Inclusive Learning.	1000
DocentAI. Teacher-Guided AI for Personalised Education. Teacher-Guided AI for Personalised Education.	1000
PeelCide. Biopesticide derived from glycoalkaloid-rich extracts.	
MISE: Migrant Identity Studies in Education. A game book about migrant identities at school	
EZAMALAB. Perception of Oral Health Associated with COVID-19–Related Symptomatology among Dental Professionals in Mexico and Spain.	
CIRCULAR METHANOL HUB. Transform waste into true resources.	
AI in Education. Understanding Student Use of Generative AI.	
The Rhetoric Repository. A Comparative Analysis Between Classical and Contemporary Discourses.	
SERETONE. Innovative mobile application that transforms classical music into an interactive and personalized well-being experience.	
iQueery - LGBTQ+ Support Assistant for Universities. AI-Powered Platform to promote LGBTQ Inclusion in Higher Education.	
Aula del Mar. Island Experiential Learning & Regenerative Tourism Initiative.	
PULSESense. Turns daily well-being check-ins into personalized insights.	
MOVES Project- Motivation and Opportunities for Value-based Engagement in School Physical Education.	
Peer Mentoring Pharma. Assessment of initiatives led by large pharmaceutical companies to improve access to medicines in underdeveloped countries.	
ZEco. A sustainable smart city: Zero Emissions Project. AI-driven Integrated Platform for Zero-Emission Smart Cities Project.	

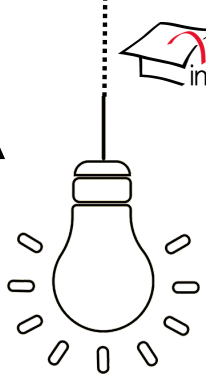

IMFAHE´S NODAL AWARD- IDEA COMPETITION- SHARK TANK

Finalist & Awarded Teams 2025

	AWARD ($)
AI4Microbes. Predictive Microbial Design for Sustainable Agriculture	3200
SCARCE. Sustainable Construction and Agriculture by Recycling Construction wastes to save the Earth	3000
EmpathAI. AI-Powered Emotional Support System	3000
Waste2Wellness. Superfood and nutri-compounds beverage from upcycled ingredients	1280
FlowGuardian. AI-powered flood-resilient housing system that combines adaptive architecture, Artificial Intelligence (AI), and satellite telecommunications	670
Transparent Bites-Social Innovation Team. Strengthening Media Literacy and Governance in the Food Industry	600
Bridge of Hope. Mobile Application Integrating Digital Education and Medical Tourism to Enhance Public Health in Underserved Regions	
VitaliAI. AI-powered web application that offers personalized and science-based health guidance focused on nutrition, gut health, chronic pain, and emotional well-being	
SciSpheres. Fighting fake news and promote scientific dissemination	
FloraMind. Innovative synbiotic supplement to create a holistic approach to neuroprotection	
Edu4Inspire. Empowering University Faculty for Inclusive Education	
EthosBot-AdvocaTeam. A Trauma-Informed Digital Tool for Universal Screening and Empowerment in Schools	
STAR. Empower high school students in underserved regions through mentoring	
Rural Soul. Connecting people from vulnerable regions with real opportunities, empowering communities and revitalising territories	
IT Without Borders. Platform for internationalizing the careers of Information Technology (IT) professionals	
CO2nnect-ENERGY. Science-Driven Strategies for Sustainability through Consulting Network for Energy Efficiency & Circular Economy	

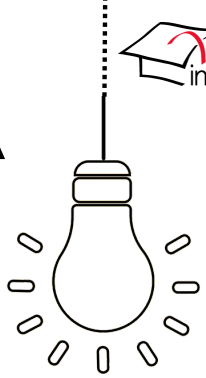

IMFAHE´S NODAL AWARD- IDEA COMPETITION- SHARK TANK

Finalist & Awarded Teams 2024

	AWARD ($)
MushProtein. Development of a high-protein and energy gel for athletes based on Cordyceps militaris mushroom.	3000
LabStream. Revolutionizing Inventory Management in Health Science Research Laboratories	2100
Nutri&Safe. Development of a safe, nutritious, and allergen-free foods for children in emergencies	2000
IberianTeam. The feminization of precariousness of the consultancy contracts from IGOs and NGOs. The case of Portugal and Spain	1400
Equishare. Provide scientific knowledge to pediatric patients	1100
Education Guardians. Develop a platform for reducing students dropout rates and improving engagement	
BioPrevent. Biomarker discovery of skin cancer risk in sun-exposed workers	
Women for women. Analyze women´s influence, improvement and growth within companies.	
Sharkess-HealthBridge. Platform where patients and their families can connect with medical teams and researchers specializing in oncologic diseases.	
SciGuide. Democratizing Job Opportunities in Science	
AIEnergyBuddy. Development of a localized energy distribution network, eased by advanced AI algorithms	
Retirement Retreat. Service to elders living in underpopulated rural villages	
Eco-Exodus. Technological tools to predict the impact of tourist on natural areas	
Timely Diagnosis For Everyone (TDFE). Develop affordable alternatives for the diagnosis and follow-up of patients with cancer and other chronic diseases	

IMFAHE´S NODAL AWARD- IDEA COMPETITION- SHARK TANK

Finalist & Awarded Teams 2023

	AWARD ($)
RePhoton. The world's first silicon solar panel refurbishment service.	2500
BlueWave. Unmanned Surface Vessel for oil spill cleaning.	2500
Mob-SuS. Mobility for Sustainable Smart Cities.	2000
LIOABE. A new food product based on freeze-dried honey powder.	1500
Smart Toy. Smart Toy for Promoting Psychological Wellbeing in Children with Autism through Sensory Biomarkers	1500

Humany. Communication platform to connect people with disabilities and altruistic individuals.

Enve-love green. A single-layer plastic film that will increase the shelf life of your food.

TripMates. App that connects drivers and passengers to share rides to a common destination.

TB busters . Electronic and portable device with a biosensor to diagnose and characterize the status of the tuberculosis disease

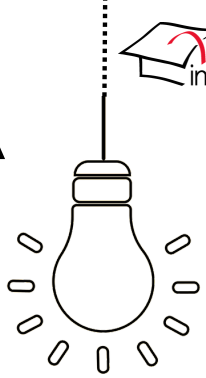

QUIDCAN. Quinoa for drug delivery agains Cancer

Kongestoon. A start-up that aims to revive the historical palm groves of Kong port in Iran and promote environmental sustainability in the Persian Gulf and Middle East region .

ACOSAPP. Mobile application for monitoring mobbing cases.

A-Bridge. A project to act as catalyst for innovative projects and mentors for new enterprise ventures in antibiotics development.

IMFAHE´S NODAL AWARD- IDEA COMPETITION- SHARK TANK

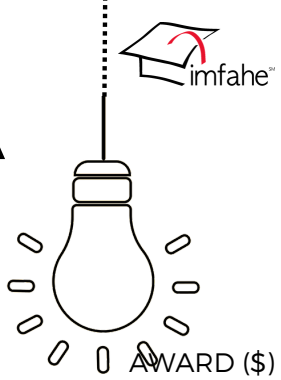

Finalist & Awarded Teams 2022

	AWARD ($)
Shrimprint. A sustainable allergen-free 3D cell-printed shrimp	4000
IRIWELL. Home-based rehabilitation exosuit	3000
Smart Water Sensor. A complete water quality analysis in minutes at the point of analysis just by a simple water droplet	3000
Renewable Amonia. Renewable ammonia for sustainable food-energy-trade nexus	2500
DocCom. A digital social network envisioned to enhance the daily lives of PhD students.	500
3IN-sole. IN-novative, IN-shape and IN-expensive insoles for all: digitalization through a scanning app	
How Would You. A platform for solving problems	
Synapse. Database with daily data from aging brains	
Aroma. Disruptive solutions, products and services based on intensive knowledge on odors and olfaction technology	
iBrush. Toothbrush that collects saliva in a biosensor, which will allow people to monitor in a fast and simple way their health	
Online Biosafety Education. Promote biosafety education and awareness among scientists and health care professionals	
ADAS. Development of an App to automatically construct professional presentations	

Finalist & Awarded Teams 2021

	AWARD ($)
SARSPRO. Platform to monitor SARS-CoV-2 vaccine and pathogeny.	3000
Beyond the Eye. Artificial intelligence-based app revolutionizing ocular health.	1500
GranO. Platform to enable retail savers to generate a greener impact on society by investing in socially responsible and sustainable finance.	1500
UriLert. Non-invasive wearable device/ mobile app notify the patients, their caregivers or both prior to the involuntary emptying of the bladder.	1500
BioEyeLashes. Bio-inspired eyelash extension glue.	1500
SmartSticker. Smart hydrochromic stickers which can change color when they get wet, alerting the user for mask replacing.	1000
TalentLab. Innovative on-line education platform.	
Be-Talent. Software that helps companies to manage the talent.	
Chronic pain and body illusions. App to modifying pain and swelling using real-time illusions in chronic pain patients.	
Perfect renting. Create a marketplace for renting homes on long term basis and to provide an end-to-end service to both tenants and owners.	
PlantWizard. App for plant lovers.	

IMFAHE´S NODAL AWARD- IDEA COMPETITION- SHARK TANK

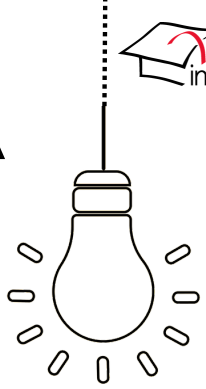

Finalist & Awarded Teams 2020

	AWARD ($)
VitaCare. Low-cost superfood to prevent/treat malnutrition in adult cancer patients.	3000
NeoFood. A new highly nutritive and sustainable "superfood", which could be a real and achievable alternative to meat.	2000
ALFRED. AI-based tool for brain tumor diagnosis able to enhance the accuracy of clinical diagnosis while reducing the costs of the process.	1000
Fire Women. Evaluate and prevent burnout in professionals who work with victims of gender violence.	
3D-life. Method for generating patient-derived 3D neuroblastoma (NB) organoid cultures that recapitulate the parental tumors.	
e-OK. Odor identification tests to better predict a diagnosis of a possible neurological disorder.	
Candi-CRISPR. Molecular diagnostic test which uses CRISPR to differentiate between Candida species and identify anti-fungal resistance markers.	
Pod of Science. Animated videos with animated characters explaining complex scientific issues to children.	
Mind-Q. App for elderly people to effectively improve their cognitive skills in a personalized way, saving health professionals' time.	
Career Guidance-Crossing Chameleon. Improving mentorship sessions through virtual career guidance.	
Investment Solutions. Providing ordinary people with meaningful investment opportunities according to their personal values.	

Finalist & Awarded Teams 2019

	AWARD ($)
My Sweet Health. Tool to help diabetic patients to control their glucose levels in an easy, personalized and constant way.	3000
Wynter Protect. Protect people from winter diseases by using specific IgY antibodies.	2000
City Dewelers. Tool to make easier decision-making for achieving sustainable goals	2000
Scicling. Scientist go cycling to learning communities to rise scientific awareness and healthy habits.	1000
UBUME. Platform for the interchange of reagents and material among different groups of the scientific community.	500
Microneedle. Microneedle-based painless vaccine delivery system for pediatric application.	MIT IDEA2 WINNERS
CardioCare. Inductive charging pacemaker with wireless data transmission: exploratory analysis of potential tracking parameters.	

IMFAHE´S NODAL AWARD- IDEA COMPETITION- SHARK TANK

Finalist & Awarded Teams 2019

Eco-distributors. Reduce both food waste and plastic use in supermarkets and other distributors.
MediScape. Escape-room as a multidisciplinary communication tool for health care professionals.
MIARCHMAT. Advanced Manufacturing of Architected Porous Scaffolds for Redox Flow Batteries.
Ovarian Torsion. Evaluation of the protective effect of dexamethasone on ischemia-reperfusion injury.
UPJO. Early detection of Ureteropelvic Junction Obstruction (UPJO) through a new medical device.

Finalist & Awarded Teams 2018

	AWARD ($)
DemVir. Device that will provide patients with cognitive impairment with a cognitive stimulation.	3000
Healthy Homes. Improve the Indoor air quality of the houses to reduce the health conditions caused by the indoor pollution.	2000
IsoWork. Device to facilitate and optimize exercise prescription for common musculoskeletal condition.	2000
Clinic AppChain. Electronic health record system based on a Blockchain approach.	1000
Soteria. A device to help deaf-blind people.
